

Index

$(A)_{ij}$, 17

\mathbb{Z}_p , 13

\mathcal{P} , 53

\mathcal{P}_n , 53

rref, 6

a_{ij} , 17

p th power, 21

adjoint matrix, 43

algebraic multiplicity, 69

augmented matrix, 4

back substitution, 3

basis, 59

characteristic equation, 68

characteristic polynomial, 68

coefficient matrix, 4

coefficients, 1

cofactor, 43

cofactor expansion, 42

cofactor matrix, 43

column matrix, 17

column space, 62

congruent modulo p , 13

consistent, 1

constant term, 1

determinant, 34

determinant function, 37

diagonal matrix, 30

diagonalizable, 73

difference, 18

differential operator, 80

dilatation, 52

eigenspace, 69

eigenvalue, 68

eigenvector, 68

elementary matrix, 25

Elementary row operations:, 4

entries, 17

equal, 18

free variable, 11

Gauss-Jordan elimination, 6

Gaussian algorithm, 6

Gaussian elimination, 6

General Linear Transformations, 79

geometric multiplicity, 70

identity matrix, 18

identity transformation, 51

inconsistent, 1

inverse, 26

invertible, 26, 51

kernel, 83

leading 1, 5

linear equation, 1

linear system, 1

- linear transformation, 49, 79
- linearly dependent, 57
- linearly independent, 57
- lower triangular, 31

- main diagonal, 17
- map, 49, 79
- matrix, 17
- matrix product, 19

- nilpotent, 32
- non-invertible, 26
- non-trivial solution, 41
- null space, 63
- nullity, 63, 83

- operator, 49, 79
- orthogonal, 32

- product, 18
- projection, 51

- range, 83
- rank, 64
- real vector space, 52
- reduced row echelon form, 6
- residue classes modulo p , 13
- rotation, 52
- row echelon form, 5
- row matrix, 17
- row space, 63

- Scale, 25
- Shear, 25
- singular, 26
- size, 4

- size $m \times n$, 17
- skew-symmetric, 31
- solution, 1
- space spanned by, 56
- square matrix of order n , 17
- standard basis, 59
- standard matrix, 50
- subspace, 53
- sum, 18
- Swap, 25
- symmetric, 31
- system of linear equations, 1

- trace, 22
- transformation, 49, 79
- transpose of A , 22
- triangular, 31
- trivial solution, 41

- unknowns, 1
- upper triangular, 30

- vector, 17, 47
- Vector arithmetic, 48

- zero matrix, 17
- zero transformation, 51
